CONTENTS Volume 69 2002

Volume 69 No. 1

Reviews of Plant Biotechnology and Applied Genetics

Role of polyamines in the ontogeny of plants and their biotechnological applications
H.P. Bais, G.A. Ravishankar **1–34**

Regular articles

Cumin regeneration from seedling derived embryogenic callus in response to amended kinetin
A.A. Tawfik, G. Noga **35–40**

Effects of tissue culture conditions and explant characteristics on direct somatic embryogenesis in *Oncidium* 'Gower Ramsey'
J.-T. Chen, W.-C. Chang **41–44**

Ds* transposition mediated by transient transposase expression in *Heiracium aurantiacum
R.J. Weld, R.A. Bicknell, J.A. Heinemann, C.C. Eady **45–54**

Salt tolerance in rice *in vitro*: Implication of accumulation of Na^+, K^+ and proline
S. Basu, G. Gangopadhyay, B.B. Mukherjee **55–64**

Direct somatic embryogenesis from mature embryos of sandalwood
V. Ravishankar Rai, J. McComb **65–70**

Somatic embryogenesis from immature and mature embryos of a minor millet *Paspalum scrobiculatum* L.
Vikrant, A. Rashid **71–77**

***In vitro* regeneration of *Echinacea purpurea* from leaf explants**
A. Koroch, H.R. Juliani, J. Kapteyn, J.E. Simon **79–83**

Effect of precursor feeding on alkaloid accumulation by a strictosidine synthase over-expressing transgenic cell line S1 of *Catharanthus roseus*
S. Whitmer, R. van der Heijden, R. Verpoorte **85–93**

Influence of carbon source and concentration on the *in vitro* development of olive zygotic embryos and explants raised from them
J.L. García, J. Troncoso, R. Sarmiento, A. Troncoso **95–100**

Research note

***In vitro* propagation of *Iphigenia indica*, an alternative source of colchicine**
M.J. Mukhopadhyay, S. Mukhopadhyay, S. Sen **101–104**

Volume 69 No. 2

Reviews of Plant Biotechnology and Applied Genetics

Commentary

Appropriateness of biotechnology to African agriculture: *Striga* and maize as paradigms
F. Kanampiu, J. Ransom, J. Gressel, D. Jewell, D. Friesen, D. Grimanelli, D. Hoisington **105–110**

Regular articles

Abscisic acid and its influence on development of the embryonal root cap, storage product and secondary metabolite accumulation in hybrid larch somatic embryos
P. von Aderkas, R. Rohr, B. Sundberg, M. Gutmann, N. Dumont-BéBoux, M.-A. Lelu **111–120**

***In vitro* multiplication of *Quercus leucotrichophora* and *Q. glauca*: Important Himalayan oaks**
V.K. Purohit, S. Tamta, S. Chandra, P. Vyas, L.M.S. Palni, S.K. Nandi **121–133**

Micropropagation of *Bupleurum fruticosum*: The effect of triacontanol
D. Fraternale, L. Giamperi, D. Ricci, M.B.L. Rocchi **135–140**

Plant regeneration from leaf-derived callus in *Citrus grandis* (pummelo): Effects of auxins in callus induction medium
H. Tao, P. Shaolin, D. Gaofeng, Z. Lanying, L. Gengguang **141–146**

Micropropagation of *Santolina canescens* Lagasca and *in vitro* volatiles production by shoot explants
J.P. Casado, M.C. Navarro, M.P. Utrilla, A. Martínez, J. Jiménez **147–153**

Multiple shoot induction and leaf and flower bud abscission of *Annona* cultures as affected by types of ventilation
S.M.A. Zobayed, J. Armstrong, W. Armstrong **155–165**

Effect of auxin, cytokinin, and sucrose on cell cycle gene expression in *Arabidopsis thaliana* cell suspension cultures
C. Richard, M. Lescot, D. Inzé, L. De Veylder **167–176**

Glucosylation of exogenous vanillin by plant cell cultures
Yuana, M.J.W. Dignum, R. Verpoorte **177–182**

A study of factors affecting embryo yields from anther culture of cabbage
P.N. Achar **183–188**

Establishment of callus and cell suspension cultures from *Gypsophila paniculata* leaf segments and study of the attachment of host cells by *Erwinia herbicola* pv. *gypsophilae*
M.N. Salman **189–196**

Research notes

Photoautotrophic micropropagation of Russet Burbank Potato
K. Pruski, T. Astatkie, M. Mirza, J. Nowak **197–200**

Production of plantlets of *Eleutherococcus sessiliflorus* via somatic embryogenesis and successful transfer to soil
Y.E. Choi, S.K. Ko, K.S. Lee, E.S. Yoon **201–204**

Volume 69 No. 3

Reviews of Plant Biotechnology and Applied Genetics

Characterization of transgene loci in plants using FISH: A picture is worth a thousand words
S.K. Svitashev, D.A. Somers **205–214**

Temporary immersion systems in plant micropropagation
H. Etienne, M. Berthouly **215–231**

Review article

Developmental pathways of somatic embryogenesis
S. von Arnold, I. Sabala, P. Bozhkov, J. Dyachok, L. Filonova **233–249**

Regular articles

***Agrobacterium tumefaciens*-mediated transformation of the legume *Astragalus sinicus* using kanamycin resistance selection and green fluorescent protein expression**
H.-J. Cho, J.M. Widholm **251–258**

Improved shoot regeneration protocol for hairy roots of the legume *Astragalus sinicus*
H.-J. Cho, J.M. Widholm **259–269**

Establishment of *Physalis minima* hairy roots culture for the production of physalins
G. Jualang Azlan, M. Marziah, M. Radzali, R. Johari **271–278**

Research notes

Plant regeneration via organogenesis in marigold
P.E. Vanegas, A. Cruz–Hernández, Ma.E. Valverde, O. Paredes–López **279–283**

Untransformed root cultures of *Nothapodytes foetida* and production of camptothecin
D.P. Fulzele, R.K. Satdive, B.B. Pol **285–288**

Somatic embryogenesis in *Sesbania sesban* var. *bicolor*: A multipurpose fabaceous woody species
S. Shahana, S.C. Gupta **289–292**

Efficient plant regeneration *in vitro* in buckwheat
H. Jin, J.-f. Jia, J.-g. Hao **293–295**

Instructions for authors **297–299**

Author index **301**

Contents Volume 69 **303–305**
